# **ABOUT US**

Santostefano by Italo Ferretti is specialized in designing, producing and distributing around the globe the finest Italian sartorial neckties, accessories, and garments for the modern Gentleman.

For over fifty years Ferretti has been operating in the luxury men's clothing market, and for a long time, it produced for brands such as Brioni, which allowed Italo Ferretti to establish the fame of the brand internationally, especially for its whandmade in Italy».

Italo Ferretti does not carry out any mass production process, indeed, the seams are made by the hands of our skilled tailors, the inscriptions manually printed by our masters, and the one-of-a-kind and customizable silk boxes are handcrafted one by one.

In our company, we believe that uniqueness is a priceless value that automation will never be able to give.

# HISTORY and BRAND HERITAGE

In the early '60s, Italo Ferretti leaves his native Silvi, in Abruzzo, and moves to Milan, where he notices the huge demand for ties in the textile market, and starts his distribution from Como to Central Italy. His success was huge and immediate. Italo Ferretti started at the highest level of activity in the field of fashion and luxury, thanks to his great creativity and his extreme detail attention in any area of interest.

True success came in the early '70s thanks to a then decades-long collaboration with Brioni.

Mr. Italo was indeed commissioned to create, produce, and distribute the collection of silk neckties and accessories.

With the desire to expand the company outside of Italy, Italo Ferretti first went to Canada and the United States, and then the rest of the world, later becoming one of the most recognized and appreciated brands in the men's fashion market.

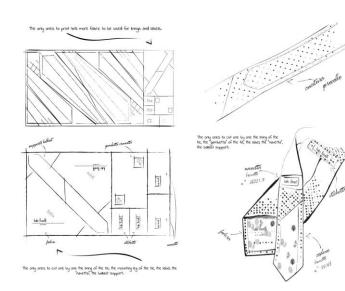

Today the company Headquarters are still in Silvi Marina (not very far from the Santostefano area where the first Italo Ferretti workshop was born), and since 2019 it's Carlo, Italo's first son who guides the Company, together with his two brothers Federico and Giacomo.
